II. OTHER ACTIVITIES

1. Several months ago, at the request of a former student from the course SIC presented at USIA, we sent to USIA the lectures which had been given at the IADB program. These were to be reviewed by USIA for possible use by a mid-eastern university professor in setting up some programs on Communism. It has come to our attention that USIA has accepted these as being quite suitable for the original purpose, and is now thinking in terms of editing the lectures for unattributed publication by USIA. [REDACTED] will meet tomorrow with the USIA officer involved and get more precise details concerning USIA's intentions in this matter.

2. With permission of DD/TR the ACO scheduled for 8 September has been cancelled. There had been a number of inquiries concerning the course, but only three registrations. We checked the three individuals concerned and in only one case was the course urgently needed. Two will be able to take the January running, and we will arrange a tutorial for the third. I believe that the special ACO conducted for FE in July, which by the time it was conducted included several people from other DDP components, used up whatever backlog of students we normally would have had for the September course. 3. [REDACTED] who is investigating the perennial problem of overlapping effort in the Communism field for the IG, spent about two hours with me on 2 September soliciting information and opinion about this matter. SIC appears to be involved in only a peripheral way. I believe Bob was simply using his contact with us as a means of self-education. His comments seemed to indicate that the role of SRS is once again the central problem.
